An **Examiner's Amendment** to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Examiner's Amendments to the specification:

Please insert the following paragraph at page 1 after the title:

This application is a 371 of PCT/GB98/03001 filed October 7, 1998, which claims the benefit of foreign priority under 35 U.S.C. §119(a)-119(d) to application United Kingdom 9721189.0 filed October 8, 1997.

Please replace the term "Example 7" at page 22, line 1 of the specification (see amendment filed September 23, 2003) with the term "Example 6".

The following is an **Examiner's Statement of Reasons for Allowance**: The following reference appears to be the closest art to the claimed invention. Foster *et al.* (WO 96/33273) teach a conjugate containing a targeting moiety and a modified clostridial neurotoxin such as LHN, where the target moiety can be a cell-binding molecule such as lectins. However, Foster *et al.* do not disclose or suggest the use of a specific lectin such as galactose-binding or N-acetylgalactosamine-binding lectin in the conjugate. Therefore, the claims are allowable over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
